I am a self-taught AI enthusiast developer who turns ideas into interactive and responsive web experiences. My journey is driven by curiosity, late-night debugging sessions, and a passion for building clean and scalable interfaces. I enjoy crafting modern UIs, while integrating APIs to create dynamic applications and training machine learning models. I focus on writing maintainable components and optimizing performance for smooth user experiences and model fine tuning. Constant learning and experimentation keep me pushing the boundaries of modern software Development and machine learning era.

COURSE	INSTITUTE / COLLEGE	BOARD / UNIVERSITY	SCORE
MCA	Cambridge Institute Of Technology, Bengaluru	VTU, Belagavi	84.0 %
BCA	Shri Shankaracharya Mahavidyalaya Durg	Hemchand Yadav University, Durg	80.1 %

Professional Skills

Programming: C/C++, Python, Java, Angular JS

Frameworks: Fast API, Django, Flask, Stream lit

Web Scraping & Testing: Beautiful Soup, Selenium, Scrapy

Machine Learning: Sci-kit learn, NumPy, Pandas, TensorFlow, Matplotlib, Seaborn

Databases: MySQL, SQLite, PostgreSQL, Neo4j, PHP

Cloud & Deployment: Microsoft Azure, Amazon Web Services (AWS), IAM (Identity & Access Management), Cloud Deployment Basics

AI Technologies: Google Ai Studio, Claude Bot, Open Claw, GitHub Copilot, Marketplace

IOT: Raspberry Pi, Arduino UNO, Mission Planner, Flight Controller, UAV

Additional Skills: Machine Learning, Data Structures & Algorithms, Problem Solving, Open Source Collaboration

Additional Tools: Postman, Docker, Command Line, CI/CD Basics

Certifications

Advance Python Programming
Sarva I.T. & Educational Development
(INDIA) Serial Number – 033256694366
Date: 30-09-2023
Licensed by **Govt. of India**

Data Visualization
TATA
Serial Number – xEudtu37622LHx7R4
Date: 15-12-2024
Licensed by Forage

OCI Certified Data Science Professional
Serial Number 102355739OCI25DSOCP
Date: 30-10-2025
Licensed by Oracle

Projects

Spam Shield Ai – Natural Language Processing

- Open Source Model that detects spam using **ML**, **NLP**, and **OCR** on **22K+ messages**.
- Deployed with **Fast API**, **Python** and **Azure Cloud**.
- Created a quick, user-friendly spam check web app with the 91% Accuracy .

Hire Fire Ai – AI Powered Resume Builder & Real-Time Job Seeker Platform

• Developed a full-stack web application that builds optimized, ATS-friendly resumes using AI and keyword analysis.
• Integrated real-time job scraping using public APIs to fetch the latest job openings matching user profiles.
• Implemented **Fast API backend** with **CI/CD deployment on Azure** using **GitHub Actions**.
• Included features like **PDF resume export**, **web scraping automation**, and **job-role suggestion engine API** .
Technologies Used: Fast API, Python, Beautiful Soup, Azure, GitHub Actions, HTML, CSS, JavaScript

Role : Project Manager

Community Contributions

ISRO- URSC (Garuda Ares) - Winners of the **Preliminary Round of the ISRO Robotics Challenge**, currently leading the development of an **automated UAV system focused on autonomous navigation and intelligent aerial operations On Mars for Mangalyaan**.
Role : Team Leader

Smart India Hackathon (Internal)
I was the **Team leader** of our hackathon team, and we were selected in the **Internal hackathon** organized by CHOSS.

Getsetai Innovation
I was the Technical Lead Of the Getsetai Innovation a Student centric Open source Contribution Community
